It's about people.

MRG-1 (072012)

Please be aware that this list is not all-inclusive and that new medications are being prescribed every day. We will work with our Medical Director to keep you informed of new medications that you can add to your list. Look for Medication Updates in future newsletters for this information.

Since some medications are prescribed for multiple conditions, please question your clients to determine why they have been prescribed a particular medication, and include this information in the remarks section of the application to expedite processing and reduce the need for additional phone calls to obtain information.
